Board of Supervisors date:            /            /
- 12) Modifications Proffer\* ☐ NO ☐ YES ☐ Will also explain/discuss at committee meeting

Do you agree to a development condition or proffer that if the application is approved by the Board of Supervisors or the Board of Zoning Appeals, from that day forward every request for a change will be sent by the developer to the Mount Vernon District Supervisor and the District Planning Commissioner, and that the Supervisor has a minimum of two weeks to inform you whether the change is not significant and can proceed according to normal County procedures, or the change is significant and will be reviewed by persons of the Supervisor's choosing. Plan changes that are covered by this proffer include:

- \* the size, quantity, height, orientation, or exterior appearance of a building or buildings
- \* the size, orientation, or characteristics of an open space, tree save area, or recreation area
- \* the size, capacity, or design of any stormwater management facility, any increase in the amount of impervious surface, any change in drainage, or any new or increased fill or encroachment into an RPA
- \* any increase in the area included within the limits of clearing and grading, the addition of or increase in height of any retaining wall, or more than a 5% increase in soil filling
- \* any change in the infrastructure including roadways, sidewalks, lighting, utility lines, buffering / screening, or landscaping.

\* The modifications proffer does not modify or replace any regulation or county dictated process for requesting a change to approved plans. The proffer is to provide opportunity for the community to learn of plan changes before they are submitted for County approval. The Planning Commissioner and the Supervisor do not grant approval of the change; rather, they only determine whether the requested change warrants review by the community. The majority of requested changes are considered "not significant" and the Supervisor will be able to respond in a day or two and not cause any delay in the development schedule.
